

ALPINE®

Mobile Media Solutions

THE BAR HAS BEEN RAISED

TuneIt™

Alpine is revolutionizing in-car sound tuning with the Alpine TuneIt™ app.

Compatible with dedicated Alpine receivers, Alpine TuneIt™ is a free sound tuning app that takes detailed sound tuning settings and makes them easily adjustable using an iPhone or Android smartphone.

Alpine TuneIt™ lets you customize settings or choose a custom preset from the database to optimize the sound for your specific vehicle. You can also share settings and rate settings shared by others. Alpine TuneIt™ even keeps you connected with Facebook notifications.

With Alpine TuneIt™ and the newest receivers from Alpine, the bar has been raised for in-car sound tuning.

Choose from 3 new CD receivers:

CDE-147BT
CDE-HD148BT
CDE-HD149BT
